

Sabah Afroz

EDUCATION

Raleigh, NC	North Carolina State University	Aug 2022 – Dec 2026
• Major: Computer Science, B.S • Relevant Coursework: Software Development Fundamentals, Data Structures and Algorithms, C and Software Tools, Operating Systems, Software Engineering • Involvement: Women and Minority in Engineering Program, Women in Computer Science, TRIO Scholar		

EXPERIENCE

Software Engineering Intern – UDPlatforms, Remote	May 2025 – August 2025
• Collaborated with a small engineering team to design and develop new product features for UDPlatforms web application, focusing on improving user experience and platform reliability • Build frontend components using React, JavaScript, ensuring responsive design and clean UI layouts • Integrated backend API endpoints using Python to support user profiles, and content uploads	
Resident Advisor – NCSU housing, Raleigh, NC	May, 2024 – Jan, 2025
• Managed a community of 45 residents, using organizational and problem-solving skills to resolve issues, document incidents, and track engagement metrics. Implemented a streamlined communication process by creating automated email templates and tracking sheets, reducing response time to resident requests by 30% • Collaborated with a team of 12 RAs in weekly meetings, applying Agile-inspired workflows	
Events, IT Support, and Student Centers Operations Assistant – NCSU, Raleigh, NC	Jan 2023 – Feb 2024
• Supported over 300 campus events, coordinating setup, technical equipment, and troubleshooting AV/IT issues to ensure seamless execution. Provided frontline technical support for projectors, sound systems, display screens, and conference tech, resolving 90% of issues on first contact	
Assistant Manager – Taco Bell, Raleigh, NC	Feb 2024 – Aug 2024
• Supervised daily store operations and coordinated shifts for 10–15 employees to maintain consistent service quality. Managed cash flow, inventory tracking, and scheduling using digital management systems. • Resolved high-pressure customer issues and optimized workflows to improve service speed and team efficiency.	

PROJECTS

WolfCafe – Restaurant Ordering System API (Course Project)

Built a scalable REST API with Java and tested endpoints using Postman. Designed MySQL relational schemas with validation and referential integrity . Developed core backend logic for orders, pricing, and inventory updates. Implemented frontend features using JavaScript and designed UI flows in Figma. Collaborated in an Agile Scrum team to deliver iteration milestones.

INVOLVEMENT

Student Government – College of Engineering Senator	2022 - 2023
Represented 10,000+ engineering students in policy discussions, using analytical thinking to evaluate proposals and improve student services. Collaborated with cross-functional committees to draft recommendations, manage feedback data, and support campus-wide initiatives.	
Undergraduate Researcher NCSU	2023 – 2024
Researched applications of VR for mental health treatment; collected and analyzed user-study data to evaluate treatment effectiveness. Presented research findings as part of the Undergraduate Research Program.	
Engineering Career Fair Ambassador North Carolina State University	2023 – Present
Supported one of the largest engineering career fairs in the U.S., coordinating operations and logistics for 300+ companies. Led volunteer teams, managed check-in systems, and resolved technical/logistical issues to ensure smooth event execution. Provided professional guidance to students and employers, strengthening departmental relationships with industry partners.	

CERTIFICATIONS

Microsoft Office Suite (Excel, Word, PowerPoint)
Autodesk AutoCAD
AutoDesk Inventor Professional
SOLIDWORKS

SKILLS

Programming Languages: Java, Python, JavaScript, C
Web Technologies: HTML, CSS, REST.js / RESTful APIs
Tools & Frameworks: React, Node.js, Git/GitHub, SQL/MySQL, Django, FastAPI
